

CORRECTING YOUR STATUS

We all have the right to freely choose our political status at any time. Political status has nothing to do with political party affiliations. It is instead a statement of what your position is relative to our government. Are you a subject of their corporation as in a US citizen , or are you one the free, sovereign, and independent Americans ?

To lawfully be a US citizen, you needed to be born in District of Columbia, or born one of the federal territories, or followed the procedure to become naturalized. If you were born in one of the 50 states, you are NOT a US citizen by birth, but instead you are a Floridian, or a Texan, etc. If you are not truly a US citizen either by birth or naturalization, but you check the box on your voter registration that you are a US citizen, you are claiming to be something that you aren't and acting against your natural allegiance to your State and attempting to commit a crime, and therefore you become an enemy of the State.

If you are a US citizen, you have shed all of your unalienable rights, including those protected by our Constitution, and instead you have become a subject of the corporation UNITED STATES (INC) . As a US citizen, the Constitution and the Bill of Rights are irrelevant to you because you have voluntarily agreed to be governed by their statutes.

Here is an affidavit to take you out of the political status of being a US citizen. The definition of citizen in Blacks Law 4th is subject. Do you really want to be a subject of their corporation ?

Instead, with this Affidavit, your status becomes one of the " free, sovereign, and independent Americans on the land jurisdiction" as it naturally was before the fraud.

According to the book "Fruit From a Poisonous Tree"(Stamper), our defacto government uses two items to support their presumption that you have volunteered to adopt the status of a US citizen. The US citizen status means you have put down all your unalienable rights to become a citizen of their corporation(DC Municipal Corporation named UNITED STATES INC), and instead of rights , as a US citizen, you have privileges and duties at the whim of Congress.

The two items they use to base their presumption you have volunteered to be a US citizen are 1) if you register to vote in their corporate system and 2) if you vote for a US Senator.

So if you want to correct your status to be a " free, sovereign, and independent" American , as described in the Treaty of a Paris (1783), you can use this Affidavit to rescind all your previous voter registrations and then you MUST NOT take part in any of their corporate elections.

A notarized copy, or one with three witnesses instead of a notary, needs to be certified mailed, return receipt requested, to your county Supervisor of Elections and the Secretary of State for the State of _____ . Keep copies of the receipts for your records.

Then please consider checking in about 2 weeks to make sure they have removed you from the voter rolls.

After you have given them some time to fix your status in all of their systems from a US citizen to a non-citizen state national (their term for your status as a " free, sovereign, and independent American")no one from the government should bother you anymore. If they do, interact politely but ask them to check their records because " I am not a US citizen." From such checking, they should decide to leave you fully alone because if they interact with you, they open themselves up to serious charges including treason.
